

FOR IMMEDIATE RELEASE:

Bullzi Holdings, Inc. 2016 Re-cap

Southport, North Carolina, March 30, 2017 – Bullzi Holdings, Inc. (BLLZ) provides a shareholder re-cap for 2016, as well as its plan for the 2017.

Thomas Welch, President and CEO of Bullzi Holdings, Inc. stated, “I want to first provide a summary for 2016, which includes the revenue and activity for all of our subsidiary’s. We ended the year with \$93,577 in profits on \$523,639 in revenue. The majority of the revenue and profits were from our core offerings, Cyber Security and on-line education”.

Mr. Welch continued by saying, “Management has spent the last 6 months contemplating the best course of action for Company so that we can bring value to our shareholders. We believed that a diverse portfolio of companies would give us an excellent opportunity for growth and share value, but with the inability to raise capital, we have found this to be unsustainable. As such, management has decided to sell off all subsidiary’s that are, either, not profitable, not producing ample revenue, or are debt laden. This will help us to refocus and build on our core business, both, of which are growth industries. Parallel to this, we will be bringing our filings current.”

Mr. Welch went on to say, “During the first quarter of 2017, we have updated all of our financials, as well as our information statement. We hope that with the release of this information, along with the proposed business changes, that we can obtain some interest in the stock, especially since it is undervalued. We are also going to seek a strategic partner or acquisition candidate, so that we can take what we have built over the past 10 years and leverage this for shareholder value.”
